

A company is struggling with organizing and managing their data. Their data is distributed across many databases and also very inconsistent. They need harmonized aggregated data to be used as the basis of advanced highly summarized reports to use the latest SAP solutions.

Which of the following solutions would you recommend?
Please choose the correct answer.

- ☐ SAP HANA Cloud
- ✓ ☒ SAP Datasphere
- ☐ SAP Analytics Cloud
- ☐ SAP HANA Cloud, data lake

What does the data fabric architecture primarily aim to achieve?
Please choose the correct answer.

- ☐ Provide customer support and relationship management
- ✓ ☒ Centralize, link, manage, and control data from various systems and applications
- ☐ Develop and deploy mobile applications
- ☐ Simplify the user interface for data applications

P_BTPA_2408

What are the best practices for implementing the SAP Integration Solution Advisory Methodology?
Please choose the correct answer.

- ☐ Focusing solely on internal processes, avoiding external integration
- ✓ ☒ Continuous monitoring, user feedback integration
- ☐ Limiting budget allocation, reducing training opportunities
- ☐ Ignoring technological advancements, restricting automation
- ☐ Reducing system updates, limiting stakeholder involvement

A customer requires a pricing plan for the SAP Integration Suite service with monthly billing in arrears. Which pricing plan would you recommend to the customer?
Please choose the correct answer.

- ☐ SAP BTP trial
- ☐ SAP BTPEA
- ✓ ☒ Pay-As-You-Go for SAP BTP
- ☐ Subscription

A fit-to-standard analysis determined that the provided SAP Fiori App for SAP S/4HANA Cloud private edition was insufficient based on existing business requirements, and that a new front-end app must be built.

As a solution architect, you are asked to propose a solution and are told the following:

- The backend logic running on SAP S/4HANA Cloud private edition is sufficient and an appropriate remote API for create, read, update, and delete (CRUD) operations exists.
- The front-end app must be able to run on a variety of devices such as mobile phones and tablets.
- Front-end app instances must scale up or down automatically based on administrator- provided scaling parameters.

Which of the following runtimes would be optimal for the new front-end app?

There are 2 correct answers to this question.

- ☐ SAP BTP, Neo environment
- ✓ ☒ SAP BTP, Cloud Foundry runtime
- ✓ ☒ SAP BTP, Kyma runtime
- ☐ SAP BTP, SAP Cloud Connector

What is the primary purpose of SAP BTP?
Please choose the correct answer.

- ☐ To manage employee payroll.
- ☐ To limit data accessibility.
- ☐ To reduce the use of cloud services.
- ✓ ☒ To integrate, extend, and innovate applications.

P_BTPA_2408

You are a solution architect assigned to a customer business transformation project. Which solutions would you recommend the customers adopt to analyze and to optimize their procurement process to exceed industry benchmarks?
There are 2 correct answers to this question.

- ☐ SAP Signavio Process Manager
- ✓ ☐ SAP Signavio Process Intelligence
- ✓ ☐ SAP Signavio Process Transformation Manager
- ☐ SAP Signavio Value Accelerators

Which services are part of SAP BTP's AI capabilities?
There are 2 correct answers to this question.

- ☐ SAP Data Intelligence
- ☐ SAP AI Foundation
- ✓ ☐ SAP AI Core
- ✓ ☐ SAP Conversational AI

What role does SAP Data Intelligence play in SAP BTP's architecture?
There are 2 correct answers to this question.

- ✓ ☐ Provides tools for building and deploying machine learning models
- ☐ Serves as the primary platform for managing master data
- ☐ Offers real-time analytics capabilities
- ✓ ☐ Facilitates data integration and orchestration across different systems

What are the key components of the SAP Application Extension Methodology Template overview?
There are 2 correct answers to this question.

- ✓ ☐ Phase 1: Assess Extension Use Case
- ☐ Phase 4: Assess Integration Testing
- ✓ ☐ Phase 2: Assess Extension Technology
- ☐ Phase 5: Assess Data Migration

P_BTPA_2408

Which SAP BTP service would you use to ensure secure identity management across multiple cloud applications?
There are 2 correct answers to this question.

- ☐ SAP Cloud Identity Access Governance
- ☐ SAP Business Technology Platform Identity Provider
- ✓ ☒ SAP Identity Provisioning Service
- ✓ ☒ SAP Identity Authentication Service

Applications on a customer's Marketing subaccount continuously crash due to insufficient memory. At the global account level, what can you use to allocate more memory to the Marketing subaccount?
Please choose the correct answer.

- ☐ Quota
- ☐ Entity Assignment
- ☐ Service Assignment
- ✓ ☒ Entitlement

Which SAP BTP extensibility types allow the development of side-by-side extensions without modifying the core system?
Please choose the correct answer.

- ☐ In-app extensibility
- ☐ Hybrid extensibility
- ☐ Embedded extensibility
- ✓ ☒ Side-by-side extensibility

As a solution architect, you are asked for your opinion on an optimal integration. You are told that the data resides in two (premise) and third party APIs. You are also told the following requirements: Periodically read the data from both systems, perform several transformations of the data, and forward the result.

Monitoring is to be done by a dedicated group from IT with SAP products. Maintenance of the integration part has a small budget, limited time, and limited resources

Which of the following solutions would you recommend as optimal for the design?
Please choose the correct answer.

- ☐ SAP Build Apps and SAP Cloud ALM
- ☐ A custom SAP Fiori App and Grafana
- ☐ SAP Build Process Automation and SAP Solution Manager
- ✓ ☒ SAP Integration Suite and SAP Cloud ALM

P_BTPA_2408

What is the strategic focus of an enterprise architect compared to a solution architect?
Please choose the correct answer.

- ☐ Higher technological focus than strategic focus.
- ☐ No strategic focus, only a technological focus.
- ☐ Equal emphasis on strategic and technological focus.
- ✓ ☒ Higher strategic focus than technological focus.

In which phase of the SAP Integration Solution Advisory Methodology is a technology mapping of customer use cases al
produced (for an example of a solution architecture blueprint, see the attached diagram)?
Please choose the correct answer.

- ☐ Enable a practice of empowerment
- ☐ Define integration best practices
- ✓ ☒ Design your hybrid integration platform
- ☐ Assess your integration strategy

What are the core components of SAP BTP?
Please choose the correct answer.

- ☐ Hardware, networking, security, and infrastructure.
- ☐ Social media, advertising, content creation, and SEO.
- ✓ ☒ Database, data management, and analytics.
- ☐ Payroll, human resources, marketing, and sales.

What is one benefit of implementing a well-structured reference architecture for generative AI solutions?
Please choose the correct answer.

- ✓ ☒ It ensures scalability, security, and maintainability of AI solutions.
- ☐ It simplifies the process of creating marketing strategies.
- ☐ It mainly focuses on manual data processing.
- ☐ It decreases the efficiency of AI deployments.

P_BTPA_2408

Which phase of the SAP Data and Analytics Advisory Methodology involves defining the business outcome and solution requirements?
Please choose the correct answer.

- ☐ Phase III: Capability map and solution architecture
- ☐ Phase IV: Data governance and roadmaps
- ☐ Scoping and baseline analysis
- ✓ ☒ Phase II: Business outcomes and solution requirements

A customer is struggling with organizing and managing the immense amount of data generated by the business. They have been told about several possible solutions that SAP BTP offers; however, they are confused about which solutions they should use.

Their data is highly structured and includes customers, sales orders, and purchase orders. The data needs to be stored for both transactional and reporting purposes in a vector database. The client prefers to use the latest SAP solutions.

Which of the following SAP BTP solutions would you recommend?
Please choose the correct answer.

- ☐ SAP Analytics Cloud
- ☐ SAP Datasphere
- ☐ SAP HANA Cloud, data lake
- ✓ ☒ SAP HANA Cloud

To comply with General Data Protection Regulation (GDPR), a company wants to build an application that allows their ci user information from the company's systems. Which SAP BTP service provides the APIs to build the application?
Please choose the correct answer.

- ☐ SAP Credential Store
- ☐ SAP Data Privacy Integration
- ✓ ☒ SAP Personal Data Manager
- ☐ SAP Data Retention Manager

You have been hired as a solution architect and it's your first day on the job. You participate in a meeting discussing the extension to SAP S/4HANA Cloud. In the meeting, you are told: "We have determined that the BusinessPartner (A2X) API in SAP S/4HANA Cloud is insufficient for our needs. Fortunate user extensibility. We are currently creating a diagram with the technical building blocks of the extension".

In which SAP Application Extension Methodology phase is the project?
Please choose the correct answer.

- ✓ ☒ Define Extension Target Solution
- ☐ Assess Extension Technology
- ☐ Assess Extension Use Case

P_BTPA_2408

Which factors should be considered when planning a DevOps strategy for applications on SAP BTP?
There are 2 correct answers to this question.

- ☒ Scalability of the DevOps pipeline
- ☐ Compliance with SAP BTP's security standards
- ☐ Integration with on-premise DevOps tools
- ☒ Continuous integration and continuous delivery (CI/CD)

Which frameworks provide the structure for enterprise architecture?
There are 2 correct answers to this question.

- ☐ CAP
- ☒ FEAF
- ☐ RAP
- ☒ Gartner EA Framework
- ☐ CPEA

Which scenarios are best suited for using SAP's Cloud Application Programming Model (CAP) within SAP BTP?
There are 2 correct answers to this question.

- ☐ Implementing real-time analytics
- ☐ Building AI-powered applications
- ☒ Developing multi-tenant SaaS applications
- ☒ Creating extensions for SAP S/4HANA

According to the SAP Integration Solution Advisory Methodology, the integration architect is responsible for which of the following activities?

Please choose the correct answer.

- ☐ Evaluation of new integration technologies / services
- ☐ Definition, communication, and continuous improvement of an integration reference architecture based on an overall IT strategy
- ☒ Definition of technical integration architectures with a focus on specific integration technologies / services
- ☐ Implementation and extension of prepackaged integration scenarios

P_BTPA_2408

A manufacturer wants to discuss the design of a solution that tracks and manages stock availability and movement of go to ensure that movements are aggregated for reporting purposes and that these reports can be used to optimize stock in the newest solutions to build these reports.

Which of the following solutions can be used together to fulfill the requirements?
There are 3 correct answers to this question.

- ✓ ☐ SAP HANA Cloud
- ☐ SAP HANA Service (SAP Regions) for SAP BTP
- ✓ ☐ SAP Analytics Cloud
- ✓ ☐ SAP Datasphere
- ☐ SAP Data Intelligence

A company is decommissioning its legacy ERP system In favor of adopting SAP solutions. The company Is not sure which company has three main business goals: Maintain several unique business processes. Maintain the solutions with a small budget, and limited time and resources, Integrate several non-SAP solutions.

Which combination of solutions should the customer adopt?
Please choose the correct answer.

- ☐ SAP Lean IX | SAP S/4HANA Cloud private edition | SAP Process Orchestration
- ☐ SAP Lean IX | SAP S/4HANA on premise | SAP BTP
- ✓ ☐ SAP Signavio | SAP S/4HANA Cloud public edition | SAP BTP
- ☐ SAP Signavio | SAP S/4HANA public edition | SAP Process Orchestration

Which components are part of the SAP Integration Suite?
Please choose the correct answer.

- ☐ Customer Relationship Management and Sales Tracking.
- ☐ Social Media Management and Marketing Tools.
- ✓ ☐ SAP Business Accelerator Hub and Cloud Integration.
- ☐ Video Editing and Graphic Design Software.

When setting up a pipeline using the SAP Continuous Integration and Delivery service, which of the following services can be triggered automatically after the build results finish?
There are 2 correct answers to this question.

- ✓ ☐ Alert Notification
- ☐ HTML5 Application Repository
- ☐ Solution Lifecycle Management
- ✓ ☐ Cloud Transport Management

P_BTPA_2408

What are the five key aspects of SAP's integration strategy?
Please choose the correct answer.

- ✓ ☒ Platform approach, agility, integration democratization, intelligent life cycle management, analytics
- ☐ Platform approach, limited scalability, manual integration, static life cycle management, basic reporting
- ☐ Custom solutions, isolated processes, manual integration, static life cycle management, basic reporting
- ☐ Basic platform, limited agility, integration fragmentation, static life cycle management, no analytics

Which tool in SAP Signavio helps in identifying process inefficiencies?
Please choose the correct answer.

- ✓ ☒ Process Insights.
- ☐ Exclusive on-premises software.
- ☐ Manual entry logs.
- ☐ Customer feedback forms.

What is a key characteristic of an Intelligent Enterprise?
Please choose the correct answer.

- ✓ ☒ Using advanced technologies to improve business outcomes.
- ☐ Limiting collaboration among departments.
- ☐ Reducing the use of data analytics.
- ☐ Increasing manual processes for efficiency.

What method is used for secure authentication in SAP BTP?
Please choose the correct answer.

- ✓ ☒ Multifactor authentication (MFA)
- ☐ Single Sign-On
- ☐ Biometric authentication.
- ☐ Single password access.

P_BTPA_2408

Which deployment options are supported by the ABAP RESTful Application Programming Model (RAP) on SAP BTP?
Please choose the correct answer.

- ☐ Hybrid deployment with cloud and on-premise components
- ☐ On-premise deployment only
- ✓ ☒ Both cloud and on-premise deployment
- ☐ Cloud deployment only

Which use cases are common for Enterprise Architecture?
There are 2 correct answers to this question.

- ✓ ☒ Postmerger integration.
- ☐ Reducing marketing efforts.
- ✓ ☒ Application rationalization.
- ☐ Increasing stock prices.
- ☐ Limiting customer feedback.

What is a key advantage of using open connectors?
Please choose the correct answer.

- ☐ Limited to SAP applications only
- ☐ Increased manual configuration
- ✓ ☒ Simplified integration with third-party applications
- ☐ No support for third-party applications
- ☐ Restricted to on-premises solutions

What is the purpose of SAP's Application Extension Methodology (AEM)?
Please choose the correct answer.

- ☐ To outline security practices for SAP BTP application development
- ☐ To provide guidelines for integrating SAP BTP with third-party applications
- ☐ To standardize the deployment process for SAP BTP applications
- ✓ ☒ To define best practices for extending SAP applications using SAP BTP

P_BTPA_2408

A customer is asking you to provide a pricing plan given the following parameters:

- Payment annual in advance
- Purchase of additional capacity such as memory or storage without penalty
- Use of additional SAP BTP services without penalty

Which pricing plan would you recommend?
Please choose the correct answer.

- ✓ ☒ SAP BTPEA
- ☐ Pay-As-You-Go for SAP BTP
- ☐ Subscription
- ☐ Trial

A customer has developed an application. This application crashes occasionally. They want to collect metrics and traces application to crash. They are particularly impressed with the OpenSearch specification from Apache and would like to use it, if one is available.

Which SAP BTP services would you recommend?
There are 2 correct answers to this question.

- ☐ SAP Audit Log service
- ☐ SAP Cloud Management service for SAP BTP
- ✓ ☒ SAP Application Logging service for SAP BTP
- ✓ ☒ SAP Cloud Logging service

What is the primary focus of Phase IV of the SAP Data and Analytics Advisory Methodology?
Please choose the correct answer.

- ☐ Identifying pain points
- ☐ Analyzing business outcomes and solution requirements
- ✓ ☒ Reviewing data governance and creating a roadmap
- ☐ Developing the solution architecture

A company is using SAP BTP to develop a suite of interconnected applications. They need to ensure that data flows seamlessly between the applications while maintaining compliance with global data privacy regulations.

What should be included in the solution architecture?
There are 3 correct answers to this question.

- ✓ ☒ Implement data residency controls using SAP BTP's compliance services
- ☐ Develop custom data encryption solutions for each application
- ✓ ☒ Leverage SAP Data Custodian for monitoring data access and compliance
- ☐ Use a decentralized architecture to manage data in each region separately
- ✓ ☒ Use SAP Integration Suite for secure data transfer between applications

P_BTPA_2408

What is the first phase of the SAP Data and Analytics Advisory Methodology?
Please choose the correct answer.

- ☐ Data governance and roadmaps
- ☐ Capability map and solution architecture
- ☐ Business outcomes and solution requirements
- ✓ ☒ Scoping and baseline analysis

What is a key component of security in SAP BTP?
Please choose the correct answer.

- ✓ ☒ Identity and Access Management (IAM)
- ☐ SAP Security Audit
- ☐ SAP Business Application Studio
- ☐ SAP HANA

What is the primary responsibility of an enterprise architect?
Please choose the correct answer.

- ☐ Managing IT security policies.
- ☐ Developing specific solutions for complex requirements.
- ☐ Planning and developing software projects.
- ✓ ☒ Aligning IT strategy with business goals.

Which of the following are process steps in serving up a model In SAP AI Core?
There are 2 correct answers to this question.

- ☐ Register the Input Dataset
- ✓ ☒ Prepare the data
- ☐ Create an AI Launchpad instance
- ✓ ☒ Make an inference

P_BTPA_2408

What is a key element in promoting a culture of ownership and engagement within an organization?
Please choose the correct answer.

- ☐ Centralizing all decision-making processes
- ☐ Focusing solely on short-term goals
- ☐ Reducing communication channels to avoid confusion
- ☐ Limiting access to integration tools to senior management
- ✓ ☐ Encouraging individual accountability and team collaboration

Which approach uses neural networks to identify patterns in data?
Please choose the correct answer.

- ☐ Traditional Programming
- ✓ ☐ Deep Learning (DL)
- ☐ Machine Learning (ML)
- ☐ Artificial Intelligence (AI)

What does Phase 2 of the SAP Application Extension Methodology methodology assess?
There are 2 correct answers to this question.

- ✓ ☐ Integration with existing systems
- ☐ Integration of user authentication methods
- ✓ ☐ Possible extension technologies
- ☐ Possible data backup solutions

What is the purpose of performing scoping of integration domains?
Please choose the correct answer.

- ☐ To avoid integration with cloud-based systems
- ☐ To limit the integration to specific technologies
- ☐ To restrict integration to a single department
- ☐ To reduce the number of integration projects
- ✓ ☐ To define boundaries and areas of focus for integration efforts

P_BTPA_2408

The finance department is creating a series of reports for their line of business (LOB) users and would like to integrate the .They would like the LOB users to maintain the portal, as opposed to IT. As a solution architect, they come to you to record best fits their needs.

Which service would you recommend?
Please choose the correct answer.

- ☐ SAP Build Work Zone, advanced edition
- ✓ ☒ SAP Build Work Zone, standard edition
- ☐ SAP Fiori Launchpad
- ☐ SAP Launchpad Service

Company XYZ, a global firm with 25K+ employees across the geographic locations Europe (headquarters), the USA (m< (procurement), is migrating to SAP S/4HANA using SAP BTP. Each geographic location has dedicated IT staff managing BTP resource quotas. For cost control, the company aims to analyze and optimize the usage and cost of SAP BTP resot geographic location, intending to enhance their SAP BTP Account model structure.

Which of the following SAP BTP account models are appropriate?
There are 2 correct answers to this question.

- ☐ One global account with one directory for each region
- ✓ ☒ One global account with one subaccount for each region
- ✓ ☒ One global account for each business function with a corresponding directory for that region
- ☐ One global account for each business function with a corresponding subaccount for that region

A company is struggling with organizing and managing the immense amount of data generated by the business. They he possible solutions that SAP BTP offers; however, they are confused about which solutions they should use.

A large amount data is in comma-separated values (CSV) and JavaScript Object Notation (JSON) documents. These documents need to. The client prefers to use the latest SAP solutions, Which SAP BTP solution would you recommend?
Please choose the correct answer.

- ✓ ☒ SAP HANA Cloud, data lake
- ☐ SAP Data Warehouse Cloud
- ☐ SAP Datasphere
- ☐ SAP HANA Cloud

A customer wants to establish connectivity between applications being executed by end users and the on- premise backend system (SAP S/4HANA). Based on the attached diagram, which combination is necessary to establish the connectivity?
Please choose the correct answer.

- ☐ Cloud Connector for 1 and Destination Service for 2
- ☐ Destination Service for 1 and Connectivity Service for 2
- ☐ Custom Connector for 1 and Connectivity Service for 2
- ✓ ☒ Connectivity Service for 1 and Cloud Connector for 2

P_BTPA_2408

What is a primary benefit of an event-driven architecture in integration strategies?
Please choose the correct answer.

- ☐ Manual intervention for each business event
- ☐ Delayed processing of business events
- ☐ Isolated and independent system operations
- ✓ ☒ Real-time processing and response to business events

A customer's sales department is having problems with governmental authorities dealing with transparency around logging other compliance topics. As an SAP Solution Architect, which SAP BTP service would you recommend for being compliant with regulations?

Please choose the correct answer.

- ☐ SAP Cloud Management service for SAP BTP
- ☐ SAP Cloud Logging service
- ✓ ☒ SAP Audit Log service
- ☐ SAP Application Logging service for SAP BTP

Given the following use case parameters:

- End users will need to restart messages in SAP S/4HANA using SAP AIF
- End users will need to change message payload in SAP S/4HANA using SAP AIF
- Clean core integration principles are to be applied.

Which of the following could be used as an "adapter" in the attached diagram?
There are 2 correct answers to this question.

- ✓ ☒ IDOC
- ✓ ☒ SOAP
- ☐ ODATA
- ☐ HTTP

As a solution architect, you are in a meeting about the design of a new application to manage the delivery process of goods maintained by the line of business (as opposed to IT).

The following application parameters/features are discussed:

- Tracking deliveries in real-time
- Optimizing delivery routes
- Providing delivery notifications to customers.
- Scaling according to usage
- Maintenance downtime must be short.

Which extension type is best suited for this application?
Please choose the correct answer.

- ✓ ☒ Side-by-side
- ☐ Key user
- ☐ Classic

P_BTPA_2408

You are a solution architect on a brownfield project where an SAP ECC 6.0 system is being migrated to SAP S/4HANA. Critical legacy applications must be migrated to the new system. There is some debate on the project team as to the app use:

Application 1 was originally written using classic ABAP. The underlying SAP tables that the application originally | and the data now exists in a new simplified table in SAP S/4HANA Cloud public edition (to which table extension: data needed for the application resides in SAP Ariba. Remote interfaces exist for both to select the data.

Application 2 was originally written using Java and relied upon tables from the SAP ECC 6.0 system as well as S will be retired; however, the SAP S/4HANA Cloud public edition instance has all the data needed for the application select the data,

Which of the following approaches should the customer use?

There are 2 correct answers to this question.

- ☒ ☐ Rewrite application 2 using the Cloud Application Programming Model
- ☐ Rewrite application 2 using the ABAP RESTful Application Programming Model
- ☐ Rewrite application 1 using the Cloud Application Programming Model

You are designing a solution on SAP BTP for a large enterprise. The company has existing on-premise SAP ERP systems and plans to extend its capabilities using SAP BTP. The solution should include new cloud-based applications and integration with the existing systems.

Which key considerations should you include in your architecture design?

There are 3 correct answers to this question.

- ☒ ☐ Implement a hybrid identity management solution to support both on-premise and cloud-based applications
- ☒ ☐ Design the architecture to leverage SAP BTP's clean core principle by minimizing custom code in the ERP system
- ☐ Utilize SAP BTP's extensibility types to build side-by-side extensions
- ☐ Develop the new applications directly within the on-premise environment to reduce complexity
- ☒ ☐ Use SAP Integration Suite for seamless data integration between on-premise and cloud systems

Which tool is used for modeling business capabilities in SAP Enterprise Architecture?
Please choose the correct answer.

- ☐ Project Management Software.
- ☐ Marketing Automation Tool.
- ☐ Human Resource Management System.
- ☒ Enterprise Architecture Designer.

You are a solution architect helping to design a custom-built application for business users. You must follow these use cases. The application requires data solely from SAP S/4HANA Cloud public edition. The application supports create, read, update, and delete (CRUD) operations. If multiple backend protocols are applicable the one with the fastest performance is to be used.

Which of the following combinations would you recommend for the application design?
Please choose the correct answer.

- ☒ ☐ Frontend: SAP Fiori | Backend: OData service binding on SAP S/4HANA Cloud
- ☐ Frontend: SAP Build Apps | Backend: IDoc binding on SAP S/4HANA Cloud
- ☐ Frontend: SAP Fiori | Backend: RFC binding on SAP S/4HANA Cloud
- ☐ Frontend: SAP Build Apps | Backend: SOAP binding on SAP S/4HANA Cloud

P_BTPA_2408

Which part of the SAP AI architecture is responsible for providing the real-time, business-specific data to enable retrieval?

Please choose the correct answer.

- ☐ SAP AI Core
- ☐ Generative AI hub
- ☐ SAP HANA Cloud vector engine
- ✓ ☒ SAP Joule

What are the primary capabilities of the SAP Integration Suite?

Please choose the correct answer.

- ☐ Restricted toolset, no automation, and limited support
- ☐ Single-purpose integrations, no prebuilt solutions, and minimal security
- ☐ Isolated data processing, manual integrations, and limited API access
- ☐ Basic data handling, no API management, and static integration protocols
- ✓ ☒ Comprehensive integration tools, prebuilt integrations, and API management

Which SAP BTP service supports the development of machine learning models?

There are 2 correct answers to this question.

- ☐ SAP AI Foundation
- ✓ ☒ SAP AI Core
- ✓ ☒ SAP Data Intelligence
- ☐ SAP Business Application Studio

What is the role of SAP Integration Solution Advisory Methodology (ISA-M) in SAP BTP?

Please choose the correct answer.

- ☐ To guide the creation of side-by-side extensions on SAP BTP
- ☐ To define the deployment options for SAP BTP services
- ☐ To standardize user interface design for SAP BTP applications
- ✓ ☒ To provide a structured approach to integrating various SAP and non-SAP systems

P_BTPA_2408

An enterprise is developing a new application on SAP BTP that will be accessed by a global workforce. The application needs to provide different levels of access based on user roles and locations.

How should the solution be architected?

There are 3 correct answers to this question.

- ✓ ☐ Use SAP BTP's geolocation services to provide location-based access control
- ☐ Integrate with an existing on-premise identity management system
- ✓ ☐ Implement role-based access control using SAP BTP's identity management services
- ✓ ☐ Utilize SAP's cloud-based identity federation services
- ☐ Develop custom user access rules within the application

What are some activities in the "Assess your integration strategy" phase of the SAP Integration Solution Advisory Method?

There are 2 correct answers to this question.

- ☐ To roll out solution architecture blueprints
- ✓ ☐ To define and introduce integration roles
- ☐ To cover new integration patterns
- ✓ ☐ To simplify landscapes after mergers and acquisitions

A client's IT department has half a dozen subaccounts. They are having problems with the administration of the subaccount global account. Which SAP BTP service would you recommend to the customer, to design and develop a custom application to perform?

Please choose the correct answer.

- ✓ ☐ SAP Cloud Management service for SAP BTP
- ☐ SAP Audit Log service
- ☐ SAP Monitoring service for SAP BTP
- ☐ SAP Custom Domain service

You are a solution architect and your client has recently completed a merger and acquisition. Your client uses SAP S/4H acquired company is using SAP ECC 6.0. For business and legal reasons, the users of the acquired company cannot yet directory. The acquired users still need access to the custom application.

Given the attached diagram, which solution would you recommend to your client in "1" to enable this access?

Please choose the correct answer.

- ☐ SAP Secure Login Service for SAP GUI
- ✓ ☐ SAP Cloud Identity Services - Identity Authentication
- ☐ SAP Authorization and Trust Management Service
- ☐ SAP Cloud Identity Services - Identity Provisioning

P_BTPA_2408

Which part of the SAP AI architecture is responsible for handling text input from end users?
Please choose the correct answer.

- ☐ SAP AI Launchpad
- ☐ Generative AI Hub
- ✓ ☒ SAP Joule
- ☐ SAP AI Core

In which phase of the SAP Data and Analytics Advisory Methodology is the target solution architecture developed?
Please choose the correct answer.

- ☐ Phase II: Business outcomes and solution requirements
- ☐ Phase I: Scoping and baseline analysis
- ✓ ☒ Phase III: Capability map and solution architecture
- ☐ Phase IV: Data governance and roadmaps

You are a solution architect and your client needs help in choosing the appropriate SAP solution to use for their application design.

- SAP SuccessFactors will trigger an "event" when employees complete a variety of tasks such as changing their address or updating their W-4 information.
- The event will be caught by one of SAP's event solutions and it will trigger (via webhook) either SAP Integration Suite or SAP S/4HANA Cloud as needed.
- The number of events processed is not expected to be high.
- A cloud solution is preferred.

Which of the following could be used in place of the "Placeholder Icon" in the attached diagram?
There are 2 correct answers to this question.

- ✓ ☒ SAP Event Broker
- ✓ ☒ SAP Event Mesh
- ☐ SAP Integration Suite, advanced event mesh
- ☐ SAP Integration Suite, standard event mesh
